City Spent \$61,880 Last Year from General Fund

The Elba municipal government is one lorem tax (\$8,041) and the cost of picking of the biggest businesses in town, especially up garbage from homes and businesses after the \$165,700 revenue from the light (\$8,357). It is easy to see that if every cent officials are responsible for managing of paying the bill. \$227,580 in public money every year. When or and councilmen, voters should remember lar business into their hands for the next nual audit. four years. So that Clipper readers will have an idea of how their tax money in the gen-

eral fund is spent, expenditures for the last fiscal year will be listed. Expenses in the city's general fund exceeded revenues by a little over \$8,000 for the period Oct. 1, 1954 to Sept. 30, 1955, according to the auditor's report for that period. Revenue totaled \$53,870 while \$61,880 was spent. Biggest single expense item last fiscal

year was the street department. Out of a total of \$15,471 spent on this service, \$8,346 went for salaries and wages and \$7125 went for other expenses. From observation, however, we know that work of Fitzhugh Calhoun and his crew is not limited to the streets. Fitzhugh is listed as foreman of the street crew but works at everything rom putting up Christmas tree lights to igging sewer and water lines. His department catches every job that comes up. Probably for ease in bookkeeping all this work lumped under streets and charged off way. So in considering the \$15,471 pent on streets, it must be remembered nany other services were furnished by the

Police protection took the next biggest

nunk of money out of the general fund. Most of the expense in this category was in salaries and wages where \$10,237 was spent to hire the five-man police force. Other expenses by the police department, such as gas for the patrol car, totaled \$1,692 to make this protection cost taxpayers \$11,929 Collecting garbage is the third most expensive service provided by the city. It costs \$8,357 a year for Elba to maintain the truck and crew on this detail. Salaries account for \$5516 of the total and \$2841 is listed for other expenses. In most cities a direct levy for garbage pick up is imposed and usually collected with the water bill.

treet department.

Here nothing is charged directly. tween revenue provided Elba by the ad va- the fiscal year.

and water system are added to the general collected from property owners was spent fund money. Directly and indirectly city on this one service, it would fall \$316 short

The city school system tapped the gengoing to the polls Sept. 17 to elect the may- eral fund for \$4,481 during the last fiscal year. This was the four largest expense in they are putting a quarter of a million dol- the budget. It will be more in the next an-Interest on bonded indebtedness cost

taxpayers \$3,194 while fire department expenses set them back \$2,645. A total of \$1,096 was paid out on insurance premiums and surety bonds. Of the city's insurance program, the auditor wrote: "We recommend that a careful review of your present coverage be made in order that you may determine whether the city is adequately protected in the event of insurable loss." Because it was "your" money that was spent, a detailed list of expenditures is be-

Advertising and printing, \$314; attorney's fee (two years), \$1500; auditing, current year), \$375; auditing (1950-51), \$200; bond trustee's fee, \$15; cemetery maintenance, \$264; Chamber of Commerce banquet, \$36; Christmas party for city employees, \$174; cigarette tax stamps, \$33; city library, \$400; Coffee County Health Clinic, \$600; contributions, \$145.

Damage caused by police car, \$83; entertainment of airport committee and workers. \$112; high school band expenses, \$135; fuel for heating, \$283; interest on bank loan, \$181; janitor service, \$112; local housing authority expense, \$302; maintenance of city hall, \$236; maintenance of levee, \$291; maintenance of municipal pool, \$300; maintenance of radio equipment, \$99; membership dues, Alabama League of Municipalities, \$100; miscellaneous, \$144; office supplies and expenses, \$172; pest and insect control, \$262; Planning Commission (Urban Renewal program), \$627; recreational program \$1195 (J. M. Windham salary \$950 and other expenses \$245); sanitary supplies, \$242; Social Security tax, \$498; tax commissions for collector and assessor, \$402; telephone and telegraph, \$266; traveling expenses, \$70.

Total expenses were \$61,844. Total revenues (for general fund) were \$53,871. We can't help making a comparison be- This left an operating deficit of \$8.012 for

To The CITIZENS Of Elba

I am a candidate for Councilman from Ward One and wish to state that I qualified for this office only for the purpose of promoting and carrying on good government for all the people of Elba in every ward and section without partiality.

- I will work in every way to encourage and bring more industries to our city and retain and aid the industries we now have.
- I advocate good streets, public parks and recreational facilities.
- I also feel that the Mulberny Heights section of our City should be considered and that they should have the benefit of public facilities such as other sections of the city have.

As you perhaps know, the City Council is not a paying office and I am seeking the position in order to try to improve our city and distribute the revenue in a proper and economical manner. I will not have time to see each of you before election day but wish to assure you through this medium that if you elect me I will conduct the office honestly and sincerely. Your vote will be appreciated.

HERSCHEL C. TAYLOR

FOR MAYOR An Open Letter from Herschel C. Taylor Candidate for Mayor

TO THE PEOPLE OF ELBA

Dear Friends:

On September 17, 1956, the voters of the City of Elha will choose a man to serve as their mayor for the next four years. I am asking you to elect me to this office which plays such a key role in Elba's growth and well-being. Toward the end that you may know my stand on some of the vital issues involved, I respectfully submit to you the following principles which shall assist me in guiding my administration if I am

· FIRST: I believe that it is to the best interest of the City of Elba to receive only one salary-the salary designated in the budget as the "Mayor's Salary." I feel that it is an unfair burden on the taxpayers of Elba to pay a man three salaries for one job. SECOND: I believe that the Water and Electric

Department of the City of Elba. Alabama should reduce their rates as much as possible as soon as possible THIRD: I believe that our young people are the backbone of our community. That a well-organized municipal recreation program financed by the City will prove to be one of their most vital assets for future growth and development, both physically and spir-

FOURTH: I favor a well-organized industrial development program for the City of Elba. I favor the promotion of existing industries in the City of Elba. I favor the promotion of existing industries in every practical way to aid in their growth and expansion orther. I believe an active program to woo new industry to Elba is in order.

F1FTH: I favor the development of a system where by all merchants in Elba will be afforded a fair and equal opportunity to furnish the merchandise, goods and services needed in the operation of the municipal

SIXTH: I believe that our Volunteer Firemen deserve more financial consideration. The meager earnings paid to them at present will hardly replace the clothing which is inevitably ruined fighting tires. SEVENTH: I believe that the people of Elba deserve to know more about where the city's money is heing spent. I favor the periodical publication of a detailed financial statement, showing the purpose for

which money was spent, as well as the names of the persons or firms receiving the money. I faithfully promise you all that if I am elected as your mayor for the next four years, I will do the very hest that I can to give Elba - all of Elba-an honest and fair city government. I earnestly request that you give me your support. With your help I will win. A vote for Herschel C. Taylor will be a vote for a new era in Elba's city government.

Respectfully yours. HERSCHEL C. TALYOR

A Message from Mayor L. P. Mullins To Elba Taxpayers

This is a statement to the taxpayers of Elba in behalf of my candidacy for re-election as Mayor. Lots of accomplishments have been achieved since I took office in 1934 through cooperation with a business-minded councils. To show the progress that has been made, I asked Mr. M. L. Strickland, Certified Public Accountant, to make a comparative statement between 1949 and 1955 showing a not increase of assets of half a million dollars during the six years. Mr. Strickland's letter and statement

are printed below. Mr. L. P. Mul'ins, Mayor

City of Elba Elba, Alabama Dear Mr. Mullins

In compliance with your request we have made a comparison of the financial condition of the City of Elba on September 30, 1949 and September 30, 1955. We are attaching hereto a comparative statement of assets and liabilities on these dates, showing the increases and decreases. You will note from this that total assets of the City Government have increased by \$586,485.02 while total liabilities have increased only \$157,424.32, or a net increase in net equity in assets of \$429,060.70. The books disclose a total equity at September 30, 1955 of \$584.954.09. We have made the regular financial reports for the City for the fiscal years ended September 30, 1949, 1950, 1953, 1954 and 1955. The growth in the financial strength of the City Government denotes efficient management and close attention on your part and those who are

associated with you in handling the municipal affairs. With kindest regards, I am. Respectfully yours, M. L. Strickland

TO THE CITIZENS and TAXPAYERS OF ELBA, ALABAMA

This letter is written in behalf of my close friend of long standing, L. P. Mullins, candidate for re-election as Mayor of Elba. What I say is voluntary and without his knowledge. It was my privilege to examine the financial state-ment and other facts in the Office of the Mayor on a

recent visit to Elba, and am surprised and gratified to find the facts as set forth in this letter: Mr. Mullins has been Mayor since 1934, a continuation in office for 22 years. His services have been most efficient. He has used good judgment and exercised foresight. He led the council in the purchase of the electrical distribution system when the assets of the town were minus \$100,000.00 - that is the town was debt to this amount. Today the assets stand at a little more than \$1,000,000.00. This is his most outstanding achievement, though by no means the only one. He worked with the authorities in bringing to Elba the natural gas facility. When funds were low and they needed money with which to meet current bills, a bank in Troy loaned them \$30,000.00 on an open note.

Reliable information was furnished me that revealed the following funds on deposit in the bank as of August 1, 1956: General Fund Account \$ 5,119.55

Water Revenue Account 11,718.00 Electric Revenue Account 26,055.16 42,992.71 TOTAL Current bills are paid as of August 1. Within the last few years these oustanding achivements have been made under the efficient management and leadership of Mayor Mullins, together with

the able town council and the citizens and taxpayers: Purchased and paid \$15,000.00 for enough pipe to pay two miles of water main. Laid two and a half miles of sanitary sewerage

Will pave five and a half miles of streets within the town of Elba at no expense to property own-4. Built a reservoir in the western section on Lark-

ins Hill and made other improvements to the water system Built a new City hall, a white way and bought a new fire truck.

Where could you find a town the size of Elba whose assets in five years have increased \$586,-485.00 while its total liabilities have increased only \$157,424.00. Show me a town the size of Elba whose total assets in excess of its liabilities as of Sept. 30,

1955 was \$584,954.00. I have lived in Elba since 1903, or been in and uot town numerous times during this period. I own property and pay taxes in the town and have a right to speak in behalf of its fiscal affairs. I saw the town in 1929 when the flood had it desolate and valueless. Soon afterward, Mr. Mullins was elected at town councilman and in 1934 was elected as Mayor. He had laid the foundation slowly but well. Today the town is in excellent financial condition and commands a high rating among municipalities of the State.

The taxpayers and citizens should keep Mr. Mullins as Mayor, for he is honest, efficient and has a keen resight, always looking for ways to make the town better. His campaign is based on a long record of achievement and not mud-slinging. Judge Sam N. Rowe. long-time Probate Judge of Coffee County, often said: "tl is dangerous to swap horses in the middle of the creek." Elba is on the way up. Lets keep the lead manon the team, and cross the bridge safely. Other worthwhile things are ahead. Keep him and he will put them Signed: J. M. Farris, Birmingham, Alabama.

home in Cullman."

Jimmy Bowdoin, first string halfback on this year's varsity eleven at the University of Alabama, is shown here with two of the three most coveted athletic awards given football players on the Crimson Tide. One is the Frank Thomas Memorial Award won his sophomore year. The award diving farming the bottom is presented to an outstanding member of the football team who has excelled in scholarship, sportsmanship, team spirit, Folsom said he had acquired leadership and campus activities each year. The other trophy the deed to the property adjoin- is the Hugo Friedman memorial award given to him his junior year as the "Most Ooutstanding Football Player of the Year." The third top athletic award which Jimmy has not won is the Joe Hurst memorial award for the A Club member with the best four year record. Besides football, Bowdoin participates in track. He is the son of Mr. & Mrs. Cecil The Governor added that he Bowdoin and was a basketball and football star for the Elba
